Summary

Software Developer with hands-on experience in Java, Spring Boot, Spring MVC, Hibernate, MySQL, Oracle SQL/PL-SQL, and RESTful API design. Skilled in building and testing scalable full-stack applications using MVC architecture, OOP, and Agile/Scrum. Experienced in API testing (Postman, JUnit), debugging, exception handling, and Git/GitHub version control. Strong foundation in Data Structures & Algorithms (DSA), database performance tuning, and unit testing. Proven ability to collaborate in cross-functional teams and deliver clean, maintainable, production-ready code across the SDLC.

Experience

PJN Technologies Pvt Ltd

Software Developer

- Build and maintain Java, Spring Boot, and REST API-based backend applications following Agile/Scrum practices.
- Develop RESTful/JSON APIs, implement CRUD operations, and integrate with MySQL/relational databases.
- Write clean, maintainable code following OOP principles; perform unit/API testing (Postman, JUnit), debugging, and exception handling.
- Collaborate with cross-functional teams (QA, DevOps, product) during sprint planning and code reviews; use Git/GitHub for version control.

Aspire Systems (India) Pvt Ltd

Intern

- Collaborated with cross-functional teams in Agile environments to solve real-world coding problems and deliver software utility solutions.
- Debugged backend issues and tested REST APIs using Postman and logging tools, contributing to software testing and QA activities.
- Improved code quality through consistent unit testing and exception handling, following industry coding standards.
- Documented solutions and participated in sprint planning and code reviews, contributing to team performance metrics.

Skills

Programming Languages

Java, Core Java, PHP, Object-Oriented Programming (OOP: classes, objects, inheritance, interfaces, polymorphism)

Frameworks & Architecture

Spring Boot, Spring MVC, Hibernate ORM, Laravel, Laravel Eloquent ORM, MVC Architecture, Middleware, Routing, Authentication & Authorization, Microservices (basic)

Web Services & APIs

RESTful API design, REST APIs, JSON APIs, HTTP methods (GET/POST/PUT/DELETE), JWT/Sanctum/Passport auth (basic), API testing, Postman

Core Concepts & Testing

Data Structures & Algorithms (DSA), CRUD operations, Exception & Error Handling, SDLC, Agile/Scrum, Unit Testing, JUnit, Debugging, Code Review

Web Technologies

HTML5, CSS, JavaScript basics, JSP, Servlet

Database & PL/SQL

MySQL, Oracle SQL, PL/SQL, Stored Procedures, Triggers, Functions, Views, Joins, Indexes, Query Optimization, Performance Tuning

Tools, IDEs & Version Control

Eclipse, IntelliJ IDEA, VS Code, Git, GitHub, Maven, Postman, CI/CD awareness

Education

KMG College of Arts & Science

Computer Science

Tamil Nadu State Board

HSC

Projects

Employment Management System

Built with Java, Spring Boot, and RESTful APIs for employee data management. Designed an optimized MySQL schema, tested APIs with Postman, and handled HTTP status codes and logging for debugging. Followed Agile practices with clean, reusable code.

<https://github.com/Haribaskargitip>

Student Management System

Full-stack app using Java, Spring MVC, and Hibernate ORM. Designed a normalized MySQL schema via Hibernate annotations; implemented CRUD, MVC architecture, input validation, and exception handling; tested with Postman and JUnit.

Certifications

Java Full Stack Development Course

JSpiders

Accenture Australia – Technology Consulting Job Simulation (Forage)

Forage

Trainee – Aspire Systems (India) Pvt Ltd

Aspire Systems

Languages

English — Good communication skills in speaking, reading, and writing

Tamil — Native/Fluent speaking, reading, and writing ability

Kannada — Basic understanding with simple communication ability
